FULL STACK DEVELOPER

Portfolio | [Linkdin](#) | [Gmail](#)

Full Stack Developer skilled in both back-end and front-end development, seeking to contribute to exceptional user experiences through scalable solutions.

Mern Stack Development Intern
Tech Grow (20/02/2024 - 20/05/2024)

Completed a 3-month virtual internship program in Mern Stack Development, gaining hands-on experience in designing, developing, and deploying web applications using MongoDB, Express.js, React.js, and Node.js.

Demonstrated strong commitment to learning and improving skills, with a commendable work ethic and dedication to delivering high-quality results.

Contributed to the team through innovative ideas, problem-solving, and collaboration, showcasing ability to work effectively in a remote environment.

Developed practical knowledge and insights into the industry, enhancing professional profile and future career opportunities.

Utilized excellent communication and teamwork skills to achieve project goals and objectives.

Project
Face book Clone

Description: Developed a functional clone of the Facebook application, focusing on core features such as user authentication, news feed display, posting, liking, and commenting. This project aimed to replicate the user experience and interface of Facebook using modern front-end technologies.

Technologies Used: HTML5, CSS3, JavaScript (ES6+), React.js, Axios (for API calls), Context API, Reducer (for state management), Hooks (useState, useEffect).

Key Responsibilities:

- Built the user interface using React components, ensuring responsiveness and cross-browser compatibility.
- Implemented state management using Context API and

system project, reducing enquiry response times by 40% and increasing customer satisfaction by 25% • Proven ability to handle client concerns, gather feedback, and drive continuous improvement Skills: • Client Relationship Management • Team Coordination • Service Quality Enhancement • Innovative Problem-Solving SKILLS Tech SKILLS • Full stack Developer • HTML • CSS • BOOTSTRAP • JAVA SCRIPT • REACT • EXPRESS • NODE JS • MONGO DB • CURSOR AI • FIREBASE • Python • SERVICENOW ADMIN • PROMPT ENGINEER	Reducer for efficient data flow and updates. • Integrated external APIs using Axios to fetch and display data (simulated backend data for the clone). • Utilized React Hooks (useState, useEffect) for managing component state and side effects. • Developed features like user authentication (simulated), news feed display with posts, like/Dislike functionality, and commenting. • Achievements: • Successfully replicated key features of the Facebook user interface and user experience. • Demonstrated proficiency in using React.js, Context API, Reducer, and Hooks for complex state management and component interactions. • Gained experience in making API calls using Axios. • Improved understanding of front-end architecture design component design EXPERIENCE SUPERVOISER HERO MOTO CORP MAR 2018 – JUN 2021 Results-driven professional with expertise in client relationship management, team coordination, and service quality enhancement. TELECALLER COUNTRY CLUB HOSPITALITY Feb 2015 – Jun 2017 Results-driven professional with a passion for delivering exceptional customer experiences at Country Club Hospitality. Specializing in outbound services, I excel at engaging potential clients, effectively communicating the value of our offerings, and driving membership growth. Handling customer inquiries, addressing concerns with grace, and building lasting relationships.
